* The Madison County Health Department issues annual permits to operate school food service establishments. The partnerships with school cafeterias consist of unannounced routine inspections, twice per year to ensure that the State of Tennessee's adoption of the 2009 U.S. Food and Drug Administration (FDA) Food Code is followed while assessing associated risk factors related to safe food handling practices.

Inspections include: Preparation, temperature controls, cleaning/sanitizing of kitchen and employee health/hygiene. Inspection scores are based on a 0-100 point scale.
