History
Founded in 2003, Madison Academic is a public college preparatory school located in Jackson. The size of the city is about 67,000. Madison provides the environment and opportunity for each student to reach his/her potential.

The Student
Each student will submit an application and a portfolio including the following information: a writing sample and three teacher's recommendations. Random selection will be based on space available at the school. An education at Madison prepares students for selective college choices and scholarship opportunities. One hundred percent of Madison students enter college and/or a military program.

The Faculty
Madison consists of 37 staff, faculty, and administrators.

The Environment
The High School features science labs, computer labs, 1,284-seat auditorium, etc.
